Building Better Roads

Township Council has budgeted to continue the aggressive plan to surface treat our gravel roads in 2013, while at the same time ensuring that our other types of road infrastructure are maintained. For the first time in Township history, North Dundas will now have more tar-and-chip roads than gravel roads (177.2km tar and chip vs. 129.3km gravel) at the end of 2013 construction season.

Investing in North Dundas Recreation Facilities

The Chesterville Arena will see a major revitalization being undertaken in 2013. Work will include the replacement of the rink slab and boards. Engineering and design work for new, expanded dressing rooms and bleachers will also be completed and examined for construction. Also, the Winchester Centennial Pool will undergo a \$293,000 renovation with 50% of the project being funded by the federal government.

Enhancing Economic Development

Township Council adopted the first ever North Dundas Economic Development Strategic Action Plan in 2012. Numerous recommendations are being implemented by Council and staff. One significant recommendation that was already implemented this spring is the new Township of North Dundas Community Improvement Plan that offers grants and loans to commercial businesses for facade improvements and interior renovations.
