2004 Performance Measures

Environmental Services	}		
Solid Waste (Garbage) Management			
Solid Waste Collection	\$46.75	\$ per household	Explanation: Operating costs for solid waste collection per household. Objective: Efficient collection services.
Solid Waste Disposal	\$43.16	\$ per household	Explanation: Operating cost for solid waste disposal per household. Objective: Efficient disposal services.
Solid Waste Diversion (Recycling)	\$89.55	\$ per household	Explanation: Operating cost for solid waste diversion per household. Objective: Efficient waste diversion services.
Solid Waste Management (Integrated System)	\$179.47	\$ per household	Explanation: Average operating costs for solid waste management (integrated) per household. Objective: Efficient waste management.
Diversion of Residential Solid Waste	22%	% solid waste	Explanation: The percentage of residential waste diverted. (based on combined residential and ICI tonnage) Objective: Waste programs divert garbage from landfills and incinerators.
Complaints	.4781	# of Complaints per 1,000 households	Explanation: The total number of complaints that are received in a year concerning the collection of garbage and recycled materials per 1,000 households. Objective: That the municipal solid waste services do not have an adverse effect on the environment.
Wastewater (Sewage) S	ervices		
Wastewater Collection, Treatment and Disposal (Integrated System)	\$476.23	\$ per megalitre	Explanation: The operating cost for collection, treatment and disposal of wastewater per megalitre. Objective: Efficient wastewater collection, treatment and disposal services.

Wastewater Main Backups	7.6923	# of wastewater main backups per 100 kilometres of wastewater main.	Explanation: The number of wastewater main backups per 100 kilometers of wastewater main in a year. Objective: To ensure Municipal sewage management practices prevent environmental and human health hazards.
Wastewater Bypasses Treatment	0.00%	% of wastewater	Explanation: The percentage of wastewater estimated to have bypassed treatment. Objective: To ensure Municipal sewage management practices prevent environmental and human health hazards.
Water Services			
Treatment of Drinking Water	\$484.81	\$ per megalitre	Explanation: The operating costs for the treatment of drinking water per megalitre. Objective: Efficient municipal water treatment services.
Distribution of Drinking Water	\$6774.06	\$ per kilometer of water distribution pipe	Explanation: The operating costs for the distribution of drinking water per kilometer of water distribution pipe. Objective: Efficient municipal water distribution services.
Treatment & Distribution of Drinking Quality Water (Integrated System)	\$937.16	\$ per megalitre	Explanation: The cost per million litres to treat and distribute drinking water. Objective: Efficient municipal water treatment and distribution services.
Water Main Breaks	2.2727	# breaks per 100 km	Explanation: The number of breaks in water mains in a year that required repair per 100km of watermain. Objective: To minimize the loss of treated water.
Boil Water Advisories	0.00	# days	Explanation: The number of days when a boil water advisory, issued by the medical officer of health, was in effect for part or all of the municipal water supply. Objective: To ensure water is safe and meets local needs.

Transportation Services Road Services			

Effective Snow and Ice Control for Winter Roads	100.0%	%	Explanation: The percentage of winter events where the response met or exceeded locally determined road maintenance standards. Objective: To provide an appropriate winter storm event response to ensure that any inconvenience and disruption in transportation caused by the storm is minimized.
Paved Roads	\$1,065.20	\$ per paved lane kilometre	Explanation: The operating costs for paved (hard top) roads per lane kilometre. Objective: Efficient road maintenance.
Unpaved Roads	\$1,445.57	\$ per unpaved lane kilometre	Explanation: The operation costs for unpaved (loose top) roads per lane kilometer. Objective: Efficient road maintenance.
Adequacy of Roads	76%	% of lane kilometers tested were rated as good to very good.	Explanation: Percentage of paved lane kilometers where the condition is rated as good to very good. Objective: To provide a paved road system that has a pavement condition that meets municipal standards.

Protection Services			
Fire Services			
Fire Protection Costs	\$0.37	\$ per \$1,000 of assessment	Explanation: The operating costs per thousand dollars of assessment for fire services, which includes firefighters, fire prevention, emergency responses, equipment and administration. Objective: Efficient municipal fire services.

General Government			
Operating Costs- for governance and corporate management	3.5%	% of total municipal operating costs	Explanation: The cost for general government as a percentage of total municipal operating costs. (based on general government support) Objective: Efficient general government support of local services.

Planning and Developm	ent			
Land Use Planning				
Location of New Development	77.8%	% of new lots, blocks and/or units	Explanation: The percentage of new lots, blocks and/or units with final approval that are located within settlement areas. Objective: To ensure new lot creation is occurring in settlement areas.	
New development with	final appro		located within settlement areas:	
New Lots	34	# of Lots	Explanation: Number of new lots within settlement areas Objective: New lot creation is occurring in settlement areas.	
New Blocks	1	# of Blocks	Explanation: Number of new blocks within settlement areas Objective: New block creation is occurring in settlement areas.	
New development with	final appro	val within er	ntire municipality:	
New Lots	44	# of Lots	Explanation: Number of new lots within settlement areas Objective: New lot creation is occurring in settlement areas.	
New Blocks	1	# of Blocks	Explanation: Number of new block within settlement areas Objective: New block creation is occurring in settlement areas.	
Preservation of Agricultural Land in Reporting Year:	100%	% of Land	Explanation: Percentage of Land Designated for agricultural purposes, which was preserved during the reporting year. Objective: Preservation of agricultural land.	
Preservation of Agricultural Land Relative to Base Year:	100%	% of Land	Explanation: Percentage of land designated for agricultural purposes in the Official Plan was preserved relative to the base year of 2000. Objective: Preservation of agricultural land in reporting year.	
Number of hectares redesignated during reporting year	0	# of Hectares	Explanation: Number of hectares those were redesignated from agricultural purposes to other uses during the reporting period. Objective: Preservation of agricultural land.	
Change in number of designated hectares since January 1, 2000	1	# of Hectares	Explanation: Number of hectares that were redesignated from agricultural purposes to other uses since January 1, 2000. Objective: Preservation of agricultural land.	

Note 1: There is no weigh scale at the landfill site, tonnage is estimated.
