

Township of North Dundas

COUNCIL REPORT

To:	CAO, Mayor and Members of Council
From	Dan Belleau – Director of Public Works
Date of Meeting:	February 18, 2014
Subject:	Monthly Report

- **Winchester Storm Sewer:** Tender package is being revised by Eastern Engineering and will be posted at the end of February with a closing date of March 19th, 2014.
- **Sidewalk Plow Operator:** We are looking to hire an on call Sidewalk Plow Operator to be on standby in case our regular driver is unavailable. We advertised in the Fall for call in operators and hired the people that applied. There were no other applicants. We have recently talked to one individual that worked for the Township before and has the experience required.
I recommend to Council that we hire Richard Elliot as a part time call in sidewalk plow operator. Rate of pay in accordance with the Part Time Operator wage Term 1.
