

Township of

North Dundas

MONTHLY REPORT

To:	CAO, Mayor and Members of Council
From:	Arden Carruthers
Date of Meeting:	APRIL 12, 2011
Subject:	Public Works Report

Up Date: Spring is here; the road department is busy cleaning up from the winter. Street sweeping and the normal patching as well as servicing, cleaning and undercoating the plow equipment is ongoing. Spring grading is well under way; I am planning to get out on the roads on Friday or Monday to assess the damage from the winter. I will have a better update at the meeting Tuesday night.

Unspecified Road Money: I have not heard back from the City of Ottawa yet on their plans for the west end of the Belmeade Road so I have not been able to put together any concrete plans for the unspecified road money yet. I will be pushing them for some answers in the next few days and will be able to bring a budget amendment to council on May 10th.

Tenders: Some of the joint tenders I participate in with the Counties and the other six municipalities are coming in slowly. I have the results of the dust suppressant tender attached and recommend we accept the tender from Morris Chemical. There will be a motion to accept this tender at the meeting.

Respectfully submitted,

Arden Carruthers CRS-S
