

Township of

# North Dundas

## COUNCIL REPORT

<b>To:</b>	Mayor and Members of Council
<b>From:</b>	Angela Rutley
<b>Date of Meeting:</b>	September 11, 2012
<b>Subject:</b>	Water & Sewer report

### 1. Chesterville Water Meter Tender Package

Mary Lynn and I met with Matt Morris of Eastern Engineering Group Inc. and three meter suppliers to review the products that are available. This information will be used to formulate the tender specifications. We anticipate issuing a tender in October.

### 2. Winchester Sanitary Sewer Capacity Evaluation

Work on this project is ongoing. We are waiting for capacity numbers from potential developments to input into the model created by JL Richards.

### 3. Chesterville Sewage Lagoon

OCWA has been given approval to begin the consultant selection tender package.

### 4. Water Conservation By-Law

We currently have separate by-laws restricting water use in Chesterville and Winchester. These by-laws are from 1988 and 1977 respectively and vary in their content. I am drafting a new by-law that will define water restrictions for the Township of North Dundas municipal water supply and apply to both Villages. This by-law will be brought to a future Council meeting.
