## COUNCIL REPORT

<b>To:</b>	Mayor and Members of Council
<b>From:</b>	Angela Rutley
<b>Date of Meeting:</b>	March 13, 2012
<b>Subject:</b>	Water and Sewer report

### 1. Winchester Sanitary Sewer System capacity evaluation

Recently, there have been numerous proposals for growth in the Village of Winchester. As a result, we need to determine the **actual** residual capacity in the Winchester Sanitary Sewer system, thus enabling developers to determine what upgrades are necessary to accommodate their plans. This means, not only lagoon capacity but pumping station and pipe capacity. The Ontario Clean Water Agency (OCWA) Toronto office have quoted a price of \$4,000 to develop the request for proposal, assess the submissions and make a recommendation on the contract award. We anticipate that the recommendation will be ready for the April 24<sup>th</sup> Council meeting.
