

Township of

North Dundas

COUNCIL REPORT

To:	Mayor and Members of Council
From:	Angela Rutley
Date of Meeting:	December 13, 2011
Subject:	Water and Sewer report

1. Winchester Feedermain and Reservoir

The feedermain, reservoir and pumping station are now in service. Water from Well #6 at the Maple Ridge Esker travels to Winchester and water from Well #5 at the Maple Ridge Esker travels to Chesterville. This configuration can be changed when the need arises.

2. OCWA Agreement

We need to amend our operating agreement with OCWA to add the operation of the new Reservoir and Pumping station in Winchester. I am negotiating the amendment with OCWA and hope to have it ready for the Council meeting.

3. Rate Study

Ken Sharratt of Sharratt Water Management is almost finished the draft of the rate study. It should be ready in January. Once Council makes a decision on the financing of the capital projects, that will have to be incorporated in the study.
