### 1. Chesterville Wastewater Environmental Assessment

#### Background:

An Environmental Assessment for the expansion of the Chesterville wastewater system was begun in 2007. The Phases 1 and 2 report was completed and an open house was held in 2008. In 2008 we applied through the Municipal Infrastructure Investment Initiative (MIII) for funding for the Chesterville Lagoon project. We were successful in obtaining a grant of \$2,692,278.68. In 2009, after lengthy negotiations, we were successful in purchasing the former Nestle plant lagoon, adjacent to our existing lagoon.

#### Current Situation:

The Phase 3 EA report is now ready for review and public consultation. A copy of the executive summary is attached. In consultation with Council, I would like to set the date for a public open house and advertise accordingly.
