

Notice of Submission of Terms of Reference Environmental Assessment of the Township of North Dundas Waste Management Plan

As part of the planning process for the Environmental Assessment (EA) of the Township of North Dundas (Township) Waste Management Plan, a Terms of Reference was submitted to the Ministry of Environment, Conservation and Parks for review as required under the *Environmental Assessment Act*. If approved, the Terms of Reference will serve as a framework for the preparation of the environmental assessment for the proposed undertaking.

What is Being Proposed?

The proposed EA Study is the EA of the Township's waste management plan for disposal of waste for a 25-year planning period. The Township is seeking to accommodate disposal of waste corresponding to the consumption of approximately 400,000 m³ of waste landfill disposal (amount to be confirmed during the EA Study) from 2022 to 2047, as its existing Boyne Road Landfill is currently at capacity. The EA Study will evaluate long-term solid waste management options to achieve this objective. Waste diversion can influence the amount of waste requiring disposal over the planning period; waste diversion is proposed as an alternative to be considered, including completion of a diversion study concurrently with the EA.
